Hi Mai,

For the first comment response I'll need to rely on Rebecca's input.

Chris and Rebecca, thanks so much for taking a look at this section and many apologies for my delay. I looked at the edits in the RTC and didn't have any questions and agree with the edits and suggestions you made. Was hoping to follow-up on three items to make sure I incorporated your edits correctly. The most recent version of the RTC is attached (air comments start at p.45), but I excerpted the relevant parts below.

Thank you!

Thank you, yes I agree. I'll make the changes on Monday.

Just spoke with Mai, she may have a question for you to discuss with her on Monday.

Thank you so much!

Chris

If I'm following, I think the following statement should state:

Chris – do you agree? If so, do you want to replace the statements?

Hi Everyone,

Ex. 5 AC/DP

Rebecca, can you double check my edits on the response below and the text in the cumulative analysis (also below)?

From RTC page 43:

DEWEY-BURDOCK
DRAFT CUMULATIVE EFFECTS ANALYSIS

Other than these issues I am good with what I've seen.

Let me know if you would like to talk on the phone. I'm in till 2:00 today and out tomorrow. Back in on Monday morning.

Thanks

Chris

Thanks so much Rebecca and Chris. I saw both of your comments regarding the need for updates to the cumulative effects analysis (CEA). It looks like it's in regard to Powertech's comment #C55. If you could please provide updates to this CEA document via redline so we can keep track of all edits we make to the CEA that would be perfect. Attached is the working draft via SharePoint link.

Thanks so much!

Subject: RTC document

Hi all, I had some trouble with the SharePoint document so am sharing a different SP link (attached—that's been renamed "copy") since:

- Chris and Rebecca, I think you mentioned potential for additional edits from OAQPS in the next few days and
- Valois—since we just spoke about a working draft of the RTC

If you all could provide any edits to this version rather than the last one moving forward. I just saved it a few minutes ago so I think it should have captured any recent edits.

Thanks!
